With 75%UFLEXX® & Armament

Professional turf fertilizer

Regular grade (SGN 200)

## Product Features

- 75% of the nitrogen is derived from UFLEXX™ stabilized nitrogen. Stabilized nitrogen technology is the solution to nitrogen loss, ensuring optimum fertilizer efficiency while being more environmentally responsible.

## Turf Benefits

- UFLEXX™ improves nitrogen efficiency, reduces nitrogen loss due to volatilization, leaching and denitrification. The result is an excellent nitrogen source with improved nitrogen efficiency which gives you an intense green colour for up to 6 to 8 weeks.
- Armament is a patented, biodegradable enhancer that insures turf nutrients remain in a plant-available form and unlocks tied-up trace elements already in the soil. It increases nutrient uptake by 20-30% at lower use rates with a longer release.
